

JOLUKA

Joluka Plastic Corner Fillet with Lip Datasheet

Corner Fillet with Lip (Nailing Lip) Datasheet

Product Description

The **Corner Fillet with Lip** designed for chamfering corners in cast concrete like beams, columns, slabs, and pre-cast products. This versatile fillet serves a dual purpose, as it is primarily used for steel shutter applications. Its nailing lip easily wedges between angle iron and shutter panels, enabling automatic attachment and ensuring durable corner protection. Crafted from high-quality plastic, it's a must-have for streamlined construction processes.

Characteristics/Advantages

- Easy installation providing a secure attachment
- Creates a clean finish with sharp edges on concrete structures
- Versatile applications
- Made from durable ABS (Acrylonitrile Butadiene Styrene) plastic

Typical Uses

- For timber shutter, lip of PLASTI-CORNER is used for nailing, which eliminates damage and visual marks of nails on concrete.
- PLASTI-CORNER With Wedging Lip can be removed from shutters when dismantling and is then ready for re-use.
- Can be bent like plain PLASTI-CORNER.

Size

- 10mm x 10mm x 14mm x 13mm

PRODUCT DATA

Colour :	Grey
Packaging:	Bundles of 10 pieces in 3m lengths
Storage Conditions:	Store away from direct sunlight, will become brittle.
